

Brock is a 9-year-old from Beaver Dam who is living with a life-threatening neurological condition. He enjoys going to the park, playing video games, swimming and fishing. Brock wishes to go on a fishing trip, and thanks to your support, his wish will come true!

His journey will begin when a surprise limousine will arrive at his home to escort Brock and his family on the first leg of their journey. They will drive to Green Bay where they will stay at a hotel resort where they can relax when they're not fishing. They'll enjoy some of the local sites and dine like royalty at a variety of restaurants.

The highlight of Brock's wish will come when he meets the captain of their fishing boat and reels in his first fish. Brock will spend quality time on the water with his family and the captain, creating priceless memories, giving them hope, strength and joy for years to come.

Thank you for making Brock's wish come true!
