

Touzong is a 16-year-old from Milwaukee who is living with a heart condition. He is a happy boy who likes to listen to music, watch TV and be outside. He wishes to have a backyard patio, and thanks to your support, his wish will come true!

Touzong's wish experience began when Make-A-Wish® volunteer wish granters met with him and his family virtually to determine his wish. With Touzong's love for the outdoors, it became clear that a backyard patio would be the perfect wish for him. Make-A-Wish staff are currently working on designing the perfect patio and will be making arrangements for it to be constructed and ordering some special furniture and accessories for his wish.

On his wish day, his wish granters will throw a special celebration for Touzong and his family. It will be a priceless moment when Touzong sees his new backyard for the first time. This wish will give Touzong a comfortable place to relax and give him and his family a healthy dose of hope, strength, and joy for years to come.

Thank you for making Touzong's wish come true!
